This report was prepared in cooperation with the
United States Department of Transportation Federal Highway Administration,
The Federal Transit Administration, and the Mississippi Department of Transportation.
ASSURANCE OF NON-DISCRIMINATION

The Hattiesburg-Petal-Forrest Lamar Metropolitan Planning Organization, a recipient of federal funds through the Federal Highway Administration and the Federal Transit Administration, does not discriminate in its program, activities, or employment policies; and procedures against qualified individuals because of race, sex, religion, age, national origin, or handicap.

Section 601 of the Title VI of the Civil Rights Act of 1964 states:

No person in the United States shall, on the grounds of race, color, or national origin, shall be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal assistance.
RESOLUTION

WHEREAS, the Hattiesburg-Petal-Forrest-Lamar Metropolitan Planning Organization designated by the Governor of the State of Mississippi as the body responsible for urban transportation planning process of the Hattiesburg Urbanized Area; and

WHEREAS, the Fixing America’s Surface Transportation (FAST) Act requires Metropolitan Planning Organization to carry the transportation planning process; and

WHEREAS, in an effort to implement the 3C transportation planning process the HPFL-MPO has prepared the Fiscal Year 2019-2020 Unified Planning Work Program (UPWP); and

WHEREAS, in order to support the elements of the 2019-2020 Unified Planning Work Program, the City of Hattiesburg Department of Federal and State Programs continues its role as the designated agency to work on behalf of the HPFL-MPO,

NOW THEREFORE BE IT RESOLVED, the Hattiesburg-Petal-Forrest-Lamar Metropolitan Planning Organization hereby approves the 2019-2020 Unified Planning Work Program;

BE IT FURTHER RESOLVED, the HPFL-MPO Policy Committee hereby authorizes and directs its Executive Director to execute and administer the Unified Planning Work Program (UPWP) in cooperation with the assistance of the HPFL-MPO Technical Committee.

This resolution having been considered and approved on Wednesday, October 4, 2018.

HFPL-MPO Executive Director

HPFL-MPO Policy Committee Chairman

Figure 3 Task Schedule
Introduction

Every metropolitan area with a Census designated urbanized area population of more than 50,000 persons must have a designated Metropolitan Planning Organization (MPO) to qualify for federal highway or federal transit assistance. In 1980, the Hattiesburg Urbanized Area population reached over 50,000, at which time the Metropolitan Planning Organization was designated by the Governor of Mississippi.

The United States Department of Transportation (USDOT) relies on the MPO’s to ensure that highway, bicycle, pedestrian, and transit projects using federal funds are products of a continuing, cooperative and comprehensive planning process. The federal and state governments provide funding support through the Mississippi Department of Transportation (MDOT), the Federal Highway Administration (FHWA), the Federal Transit Administration (FTA). The planning efforts are performed and funded through the City of Hattiesburg’s Department of Federal and State Programs which serves as the designated planning agency for the Hattiesburg-Petal-Forrest-Lamar Metropolitan Planning Organization (HPFL-MPO).

Purpose of the Unified Planning Work Program

The Unified Planning Work Program (UPWP) is prepared and approved by the Policy Committee of the Hattiesburg-Petal-Forrest-Lamar Metropolitan Planning Organization (HPFL-MPO). Pursuant to current transportation legislation, the HPFL-MPO’s 2019-2020 UPWP identifies all transportation and related planning activities that will be undertaken by the HPFL-MPO during the next two fiscal years from October 1, 2018 to September 30, 2020. The UPWP helps to assure that planning resources are allocated according to regional needs as identified by the City of Hattiesburg, the City of Petal, Forrest County, Lamar County, and the Mississippi Department of Transportation (MDOT).

Legislative Guidance

The 2019-2020 UPWP was developed in accordance with regulations set forth in the Fixing America’s Surface Transportation (FAST) Act, adopted December 4, 2015. The MPO is responsible, together with the State of Mississippi, for carrying out the provisions of FAST Act under Title 23, United States Code, Section 134 (The Urban Transportation Planning Process), and further regulated by Title 23 Code of Federal Regulations 420 and 450.

The Scope of the Metropolitan Planning Process must include the following transportation planning factors:

• Support the economic vitality of the United States, the States, metropolitan areas, and nonmetropolitan areas, especially by enabling global competitiveness, productivity, and efficiency;
• Increase the safety of the transportation system for motorized and non-motorized users;
• Increase the security of the transportation system for motorized and non-motorized users;
• Increase the accessibility and mobility of people and freight;
• Protect and enhance the environment, promote energy conservation, improve the quality of life, and
• promote consistency between transportation improvements and State and local planned growth and economic development patterns;
• Enhance the integration and connectivity of the transportation system, across and between modes throughout the State, for people and freight;
• Promote efficient system management and operation; and
• Emphasize the preservation of the existing transportation system.

The FAST Act expands the scope of consideration of the metropolitan planning process to include:

• Improving transportation system resiliency and reliability;
• Reducing (or mitigating) the stormwater impacts of surface transportation; and
• Enhancing travel and tourism. [23 U.S.C. 134(h)(1)(I) & (J)]

The tabled “Scope of the Metropolitan Planning Process” below shows how the Planning Tasks relate to each of the planning factors and FAST Act expansions listed above.

In compliance with the FAST Act the HPFL-MPO will identify, evaluate, and select performance measures to be utilized in the transportation planning process. National performance goals and measures identified by federal and state transportation agencies will be considered and utilized as required. Additional performance measures may be selected for use at the local level in determining the needs of the transportation system in an effort to improve the overall system performance within the HPFL-MPO planning area.
Public Involvement

The public involvement is conducted in accordance with the adopted Public Participation Plan. Staff sends notification of all Policy Committee, Transportation Improvement Program (TIP), or Metropolitan Transportation Plan (MTP) meetings to a mailing (email) list comprised of citizens, businesses, federal, state, and local agencies related to or interested in transportation planning. Furthermore, meeting notices are posted in the City of Hattiesburg and the City of Petal’s City Halls, Forrest and Lamar County’s Offices, posted on the HPFL-MPO website and advertised in the local newspaper.

Definition of Area

The Metropolitan Planning Area (MPA) of the HPFL-MPO consist of the jurisdictional boundary of the City of Hattiesburg, the City of Petal, a portion of Forrest and Lamar counties as depicted in Figure 1.

Organization

Organization

The HPFL-MPO Policy Committee is the governing and final decision-making body for the organization. It is comprised of the Mayors of the City of Hattiesburg and City of Petal, Presidents of the Forrest County and Lamar County Board of Supervisors, Executive Directors of the Mississippi Department of Transportation Federal Highway Administration and the Federal Transit Administration and the Executive Director of the MPO in Appendix B.

The HPFL-MPO Technical Committee (TC) is responsible for advising the Policy Committee on all urban transportation planning matters and to help guide the metropolitan transportation planning process. Additionally, this committee advises on issues of a technical nature and provides recommendations on HPFL-MPO policy issues. The TC is comprised of engineers, planners, technicians, city/county full-time staff, and staff of state and federal transportation agencies. A current list of TC members is provided in Appendix B.

The MPO Staff and the Technical Committee assist MPO board with planning and recommendations. The HPFL-MPO currently operates with the following staff positions: Executive Director, MPO Division Manager, GIS Specialist, GIS Technician and MPO Office Assistant and interns as necessary.
As a small organization, the HPFL-MPO’s effectiveness also depends on its ability to form collaborative partnerships with a variety of stakeholders, including community groups, health care professionals, school/college administrators, utility companies, the Chamber of Commerce, and economic development groups on programs, projects and initiatives.
Planning Issues & Emphasis

Emphasis for the 2019 and 2020 fiscal years will include the following:

2045 Metropolitan Transportation Plan (MTP)
An important element of the current UPWP is maintenance of the 2040 MTP. This long-range plan focuses on developing a multimodal transportation system and serves as the guide to decision-making for the Policy Committee. Developing and implementing Performance-Based Planning, completion of data collection, data analysis, and system evaluation using the travel demand model, public outreach and technical writing will be done, for maintenance of the 2015-2040 MTP and in preparation for the update to the 20-2045 MTP.

Transportation Improvement Program (TIP)
The TIP is a four-year, fiscally constrained program that identifies which federally funded projects will be implemented. The TIP must be consistent with HPFL-MPO’s adopted Metropolitan Transportation Plan (MTP). The 2019-2022 TIP will be monitored and amended as necessary and the 2019-2022 TIP will be developed in compliance with federal regulations.

Public Participation
Improve public participation; utilize visualization tools to engage the public’s interest; engage the traditionally underserved populations, using radio, interpreters or non-mainstream news sources; remain compliant with state and federal regulations for the Open Meetings Act, Americans with Disabilities Act (ADA), Title VI/Environmental Justice issues and Limited English Proficiency Plan (LEP).

Transportation Model & GIS Development
Data collection, defining networks and zones, expanded GIS capabilities, and other activities will be needed to keep the transportation model updated for the MTP and other transportation analyses.

Comprehensive Traffic Count and Studies Clearinghouse
Traffic Count data collection and mapping database development, traffic study data collection and web based clearinghouse development and web maintenance.

Safety
The HPFL-MPO will make every effort to support member agencies as they integrate safety considerations in all planning levels. This planning will include all modes of transportation, thereby developing a safe network for all travelers.

Security
The HPFL-MPO will make every effort to support member agencies as they integrate security considerations in all planning levels. This planning will include all modes of transportation, thereby developing a secure network for all users.

Community Mobility
Develop a county–wide bicycle and pedestrian plan that addresses policy issues, design guidelines, and funding opportunities focused on jurisdictional boundaries between and within member agencies jurisdictions. The goal is to create a seamless network that increases the connectivity and accessibility of local facilities making non-motorized modes more convenient and safer.

Public Transportation
Functions to provide public transportation planning and management.
**Financial Summary**

The estimated funding available to the HPFL-MPO for 2019 and 2020, respectively, totals **$5,240,603** in federal, state, and local funds. The Federal and Local funding will be available over the two year period. Please be aware that funding estimates are based upon prior years’ authorizations; approvals are made contingent upon legislation for continued funding.

The Unified Planning Work Program currently addressed planning funds administered by the U.S. Department of Transportation under three programs.

- Federal Highway Administration Planning Funds (PL-Funds)
- Federal Transit Administration Flex Funding Program (5305 Funds)
- Federal Transit Administration Section 5307 Program
- PL carryover funds have been reduced by paid invoices and pending invoices
- *5307 Carryover Funds see FY2019

The Mississippi Department of Transportation provides a share of the non-federal matched for the Flex Fund programs. The City of Hattiesburg provides local monies and in-kind services for PL-funds and transit funds. The Section 5307 program is match solely by the City of Hattiesburg for its Hub City Transit (Mass Transit) program.

*FHWA AND FTA Planning funds are consolidated under the Consolidated Planning Grant (CPG)
Unified Planning Work Program Tasks
TASK 1.0 - ADMINISTRATION/MANAGEMENT

Responsible Party and Contact Information: Andrew Ellard
Urban Development Department
601-545-4690
aellard@hattiesburgms.com

OBJECTIVE
The objective of Task 1.0 is to ensure that the metropolitan transportation planning process is a
continuing, comprehensive and coordinated (3C), regional transportation planning program conducted
in compliance with applicable federal, state, and local laws and regulations in order to address the
transportation needs within the Metropolitan Planning Boundary and ensure that all modes of
transportation are considered as viable elements in the overall planning process.

POLICY PURPOSE: The MPO will maintain offices and staff for the purpose of administration and
accessibility to the operations of the MPO. The MPO administrative staff will maintain fiscal
accountability in accordance with federal regulations for grant administration, including the in-kind
program; project managers will monitor staff and/or consultant performance on work assignments as
required accomplishing UPWP tasks

EXPECTED PRODUCTS
Expected products from this task include the implementation of the metropolitan transportation planning
process through:
• Program Administration/Management;
• Committee Support;
• Travel and Training;
• Interagency Coordination; and
• Public Participation

SUBTASKS
1.1 Program Administration
Administer the program by:
• Accomplishing planning objectives and ensuring compliance with applicable federal, state, and
local laws and regulations
• Carrying out accounting and records management
• Providing office space for HPFL-MPO staff. Managing HPFL-MPO staff, including assignment of
tasks, oversight of responsibilities, performance
• evaluations, and administration of employees’ paid vacations, holidays, sick leave and bonus
days;
• Implementing, maintaining and updating policy documents including the HPFL-MPO Bylaws, the
• Public Participation Plan and the Limited English Proficiency Plan;
• Developing and managing contracts necessary for carrying out the program;
• Participation in the Association of Metropolitan Planning Organizations (AMPO), the Texas
Metropolitan Planning Organization (TEMPO) and other organizations that enhance the planning
process; and
• Federal and state legislation related to or impacting transportation issues will be monitored.
1.2 Committee Support
Provide support to the Policy Committee (PC), Technical Committee (TC) and other designated subcommittees by:
- Preparing and distributing meeting schedules;
- Securing meeting locations and coordinating room arrangements;
- Advertising and posting meeting notices in accordance with the Public Participation Plan;
- Preparing and delivering committee packets and supporting information;
- Preparing resolutions supporting planning projects from member agencies; and
- Provide meeting minutes or notes, as appropriate, to committee members.

1.3 Staff Travel and Training
Attend workshops, conferences, seminars, webinars and other events that support the work of the HPFL-MPO and further enhance staff knowledge, skills and abilities. Attendance at the following is anticipated, subject to prior approval from MDOT for all out-of-state travel:
- FHWA and MDOT Training Sessions
- MDOT Statewide MPO’s Executive Committee, Subcommittee and Membership Meetings
- Association of MPO’s (AMPO) Annual Conference
- ESRI National Conference
- Transportation Research Board (TRB) Innovations in Travel Modeling
- Mississippi Chapter of the American Planning Association (APA MS)
- American Planning Association (APA) National Conference
- TRB Small and Medium-Sized MPO Conference
- National Training Institute Training (NTI)
- Mississippi Automated Resource Information System (M.A.R.I.S.) Forums
- MDOT Statewide Transit Summit

1.4 Interagency Coordination
Coordinate with agencies and community groups on transportation-related issues within the HPFL-MPO planning area.

These groups include, but are not limited to:
- MDOT State and District VI
- City of Hattiesburg
- City of Petal
- Forrest County
- Lamar County
- University of Southern Mississippi
- William Carey University
- Hattiesburg Laurel Regional Airport
- Railroad Agencies
- Area Development Partnership
- Southern Mississippi Planning and Development District
- Forrest County Planning Department
- Hattiesburg Convention & Visitors Bureau
- Lamar County Planning Department
- Hattiesburg Downtown Assoc.
- Medical Centers
- Social Service Agencies
- Bicycling Advocacy Groups

1.5 Public Participation
The HPFL-MPO will engage the public in accordance with the Public Participation Plan (3P) and will meet the requirements of U.S. Title I of the Civil Rights Act of 1964 by:
- Conducting appropriate public hearings, public meetings and community outreach activities;
- Maintaining a database of media contacts for dissemination of public participation materials and notices;
- Producing and distributing a quarterly newsletter;
• Extending HPFL-MPO’s outreach using the HPFL-MPO website, surveys, electronic newsletters, visualization tools and appropriate innovative participation techniques;
• Complying with the FTA/MDOT directive to maintain a Limited English Proficiency Program (LEP), wherein information and documents will be made available to the public in other languages upon request, to facilitate participation in HPFL-MPO plans, programs and activities; and
• Attending and participating in local meetings addressing transportation issues or issues that impact transportation concerns.

Previous Work

• MPO Administration and Management
• Unified Planning Work Program (UPWP)
• Quarterly Transportation Policy Committee (TPC) and Technical Coordinating Committee (TCC) meetings
• MPO self-certification review
• Maintain interagency agreements
• MPO Planning and Technical Support
• Transportation Improvement Program (TIP)
• Professional Development for MPO Staff and MPO Members

• Functional Roadway Classifications
• Supervision of staff assigned to Transportation Planning and MPO tasks
• Participation and coordination of federal and state programs
• Memorandum of Understanding between HPFL-MPO and MDOT
• Invoice, Budget and Quarterly Reports
• Participate in federal and state meetings
• Annual Audit

<table>

TASK 2.0 - DATA DEVELOPMENT & MAINTENANCE

Responsible Party and Contact Information: Andrew Ellard
Urban Development Department
601-545-4690
aellard@hattiesburgms.com

The objective of Task 2.0 is to collect, update, analyze, model and maintain the basic data, inventories and tools necessary for use in implementing the HPFL-MPO transportation plans, programs and projects. Private sector professional services may be utilized in order to supplement staff efforts under this task.

EXPECTED PRODUCTS

Expected products from this task include:
- Collection, analysis, and maintenance of transportation data;
- Maintain and update databases and inventories of transportation data and facilities;
- Maintain and update the travel demand model;
- Maintain and update the Geographic Information System (GIS).

PREVIOUS WORK

- Provision of land use, socioeconomic, population data to be used by communities in long range transportation planning
- Provision of maps, traffic counts, inventory data and other technical information
- Continuous monitoring and surveillance of growth patterns and other factors (such as subdivision development) for effect on transportation
- Coordination of transportation planning process
- Technical assistance, including maps traffic statistics and planning data

SUBTASKS

2.1 Transportation Data Collection and Analysis

HPFL-MPO staff, in cooperation with member agencies, will develop, analyze, update and maintain data relative to the transportation system. Socioeconomic data, transportation data, information services, travel demand modeling and analytical support will be developed and utilized in carrying out the transportation planning process, to the extent that resources allow, by:

- Collecting and maintaining population, employment, land use, and socio-economic data;
- Developing and maintaining maps and inventories of transportation system components;
- Collecting, updating and maintaining Geographic Information System (GIS) data for use in data retrieval, analysis, projections, mapping and the presentation of transportation planning products and activities in support of public participation and environmental justice programs;
- Establish an annual program for collecting traffic volume and turning movement counts.
2.2 Technical Assistance, including Maps, Traffic Statistics and Planning Data
To provide technical assistance to the MPO entities in transportation planning and coordination of MPO plans, activities and policies in order to promote overall cooperation, long/short term planning and capital.

- Train staff on the GIS/TMS system, Arc View and TRANSCAD software.
- Provision of current land use, population, socioeconomic data.
- General monitoring and surveillance to assure the metropolitan urbanized area is in compliance with current land use, planning and transportation plans.
- Maintain current and accessible inventory of land use, zoning changes, traffic counts and additional planning data for transportation planning purposes.
- Update zoning maps with changes.
- Obtain digital aerial photography in order to verify land use by consulting current aerial photography and conducting field checks.
- Provide other technical assistance as requested. This assistance will include many functions required for proper daily operations of the MPO. This will include items such as surveying, researching legal documents, traffic counting, TMS/GIS maintenance, software updating and personnel scheduling.
- Purchase of GIS equipment and software for upgrade and implementing Transportation Management System (TMS).
- Purchase of capital equipment for transit system this includes buses and computer equipment.
- Technical assistance in implementing tracking program for transit system.

2.3 Training
Develop a training program to continually monitor, evaluate and identify priority projects and funding sources for projects to improve all components of transportation including safety and mobility. Continue MPO agency staff professional growth through participation in training courses, seminars and workshops that promote the 3C planning process and overall administrative techniques for continuation of MPO activities.

- Continue staff training on the GIS/TMS system, Arc View and TRANSCAD software
- Provide training for MPO members
- Staff training for transportation initiatives. (FTA, MPO, Federal and State)

**OBJECTIVE**

The objective of Task 3.0 is to implement and maintain short-term transportation planning activities associated with FY 2019-2020. To evaluate the existing transportation network and infrastructure in terms of operational efficiency and development of alternative strategies for reducing congestion, improving safety, and enhancing the mobility of people and goods. The HPFL-MPO does anticipate utilizing private sector professional services in this work task.

**EXPECTED PRODUCTS**

Products expected from this task include:

- Management of the FY 2017-2020 Transportation Improvement Program (TIP);
- Implementation the 2019-2020 Unified Planning Work Program (UPWP);
- Development of the 2019-2022 TIP;
- Development of the 2019-2020 UPWP;
- Development and submittal to MDOT, FHWA, and FTA of the Self-Certification Statements and the Annual List of Projects (ALOP), as required;
- Coordination with transit service providers; and
- Monitoring the Regional Intelligent Transportation System (ITS) Architecture

**PREVIOUS WORK**

- Develop and execute Unified Planning Work Program (UPWP)
- Develop and coordinate local Transportation Improvement Plan (TIP)
- Partnership and continue development of the Long Range Transportation Plan
- Conduct special studies (i.e. alternative truck route, corridor analysis, parking, access, etc.)
- Update of major thoroughfare plan
- Long-range planning, Short-range planning
- Develop and maintain project prioritization (construction) list

**SUBTASKS**

**3.1 Manage Program Documents**

The following programmatic documents will be managed:

- Unified Planning Work Program (UPWP) - the 2019-2020 UPWP will be monitored and amend and as necessary and the 2019-2020 UPWP will be developed;
- Transportation Improvement Program (TIP) – the 2017-2020 TIP will be monitored and amended as necessary and the 2019-2022 TIP will be developed. Changes that impact projects or available funding will be submitted to the HPFL-MPO staff by member agencies;
• Annual Listing of Obligated Projects (ALOP) – the 2017 ALOP and the 2018 ALOP will be developed and made available to the public by posting on the HPFL-MPO website; and
• Self-Certification Statement – the Self-Certification Statement will be prepared and included in the UPWP and the TIP documents (see Appendix F).

3.2 Coordination with Transit Service Providers
The HPFL-MPO will coordinate with transit service providers, when requested and to the extent that HPFL-MPO resources allow, by:
• Providing assistance with planning projects for public transportation services in underserved areas within the HPFL-MPO planning area;
• Participating in efforts to maintain the Coordinated Regional Public Transportation Plan;
• Providing assistance for city level planning analyses in support of Environmental Justice/Title VI requirements to ensure compliance with FTA requirements;
• Participating in opportunities for transportation demand management;
• Participating in public education/awareness activities; and
• Supporting member agencies applications for transit related grants and other funding sources.

3.3 Transportation System Management (TSM)
Staff will provide support for maintaining the Regional Intelligent Transportation System (ITS) Architecture and Deployment Plan by:
• Participating in planning and system review meetings;
• Developing and maintain inventories useful to the deployment of ITS components;
• Partnering with member agencies on grant and other funding source applications; and
• Evaluating potential impacts on the regional transportation system from planned deployment of ITS components.

TASK 4.0 - METROPOLITAN TRANSPORTATION PLAN

Responsible Party and Contact Information: Andrew Ellard
Urban Development Department
601-545-4690
aellard@hattiesburgms.com

OBJECTIVE
The objective of Task 4.0 is to implement, monitor and amend as necessary, the 2040 Metropolitan Transportation Plan (MTP) which identifies transportation needs for the region between 2015 and 2040.

Section 134 (i)(2), U.S.C., as amended by MAP-21 and the FAST ACT, AA transportation plan-----shall contain, at a minimum, the following: C (2)(E) FINANCIAL PLAN: (i) CA financial plan that (I) demonstrates how the adopted transportation plan can be implemented; (II) indicates resources from public and private sources that are reasonably expected to be made available to carry out the plan; and (III) recommends any additional financing strategies for needed projects and programs. (ii) The financial plan may include for illustrative purposes, additional projects that would be included in the adopted transportation plan if reasonable additional projects that would be included in the adopted transportation plan if reasonable additional resources beyond those identified in the financial plan were available. (Note: These additional projects that may be included for illustrative purposes are usually referred to as Avision projects.) Therefore, the purpose of this subtask is to produce a financial component for the MTP.

EXPECTED PRODUCTS
- Management of the current MTP;
- Planning and development of the 2045 Metropolitan Transportation Plan

PREVIOUS WORK
- The 2040 MTP was adopted by the MPO in January 2016;
- The 2040 MTP included a Financial Plan that listed all proposed street and highway improvements for each stage of the plan; and
- The estimated cost was shown, and the funding source for each proposed improvement was identified.
SUBTASKS

4.1 Metropolitan Transportation Plan (MTP) Management and Planning

The HPFL-MPO will implement the current MTP and continue to evaluate the impact of changes that occur in planning policy, project priority, available funding and federal legislation and amend the MTP as necessary.

TASK 5.0 - SPECIAL STUDIES

Responsible Party and Contact Information:
Andrew Ellard
Urban Development Department
601-545-4690
aellard@hattiesburgms.com

OBJECTIVE
The objective of Task 5.0 is to further the goals and objectives of the transportation planning process through special studies undertaken by MPO staff and consultants in support of existing or projected national, statewide, and/or regional transportation related issues and needs.

EXPECTED PRODUCTS
- Serve as project manager for consultant-led activities and
- Coordinate and facilitate meetings, provide oversight of the project managers
- Conduct special studies (i.e. alternative truck route, corridor analysis, parking, access, etc.)
- Long-range planning, Short-range planning
- Develop transit related programs
- Development of major corridor studies

PREVIOUS WORK
- Planning and management of public transportation system
- Development of Transit Studies

SUBTASKS

5.1 Major Corridor Studies
The HPFL-MPO will develop a regional concept for corridor analysis all the major arterials that serve the Hattiesburg Urbanized Area that would address economic development, emergency evacuations, land use and increasing congestion. Leaders, staff and transportation stakeholders at the cities of Hattiesburg and Petal; the HPFL-MPO; Forrest and Lamar County; the MDOT; and the University of Southern Mississippi will form a working group that established priorities to improve corridor development.

5.2 Drainage Study Relative to Potential Future Project
The HPFL-MPO supports a study of the drainage area in the vicinity of Gordon’s Creek, particularly as it pertains to potential impacts that future expansions or other projects along Lincoln Road – a significant East-West corridor – may have on the area.

5.3 Pavement Management Planning
The goal of the Pavement Management Plan is to provide each HPFL-MPO entity with an effective, data-driven approach toward active pavement maintenance. The intended outcome of this project is a planning document that complements the MPO’s Long-Range Transportation Plan (2015-2040) by way of specific attention to pavement maintenance, which local jurisdictions will find useful in planning and implementing future projects.
Activities in support of the corridor studies include:

- Contract management;
- Data Support for the Consultant;
- Webpage maintenance and Map production;
- Coordinating public participation activities related to the study;
- Meeting coordination and facilitation;
- Document review; and
- Invoice processing.

Responsibility Party and Contact Information: Andrew Ellard
Urban Development Department
601-545-4690
eaellard@hattiesburgms.com

OBJECTIVE: To provide planning and grant management for Hub City Transit and to provide general operating assistance. The staff will work with Hub City Transit to support a coordinated transportation plan and engage them in the regional transportation planning process to include public involvement and Title VI compliance. The operation of an efficient transit system in the Hattiesburg Urbanized Area will include funding applications, finance management, marketing plans, planning for local and regional mobility infrastructure; activities identifying transportation projects and related improvements to reduce congestion, improve air quality and create economic and employment impacts.

EXPECTED PRODUCTS
- Administrative Oversight of Transit Study to improve routes in the urbanized area.
- Transit System Performance Monitoring
- Service Expansion Planning
- Transit and Paratransit Planning Activities
- Administrative Oversight of Transit Study to improve routes in the urbanized area.
- Carry out public involvement activities related to transit and paratransit as needed.

SUBTASKS

6.1 FTA Technical/Administrative
Provide technical assistance and staff support to the Hub City Transit (HCT). (Ongoing throughout fiscal year). Assist HCT in completing necessary grant applications for Section 5307, 5310, 5305 and 5311 and FTA and MDOT Grants. Conduct quarterly reviews of routes and schedules to determine effectiveness. The required quarterly monitoring and review of the fixed route service is accomplished. Assist HCT in monitoring and evaluation of the fixed-route transit services. Develop and implement a HCT Advisory Committee. Provide staff and manage the HCT Advisory Committee to monitor and advise on ADA issues, complaints and concerns for the fixed routes services provided in the Hattiesburg Urbanized Area.

6.2 Regional Transit Planning
Facilitate regional transit planning among transit providers including local, state and regional providers. The MPO will monitor, as needed, data for Transit Quality Level of Service for transit services as the fixed-route system ITS components are brought fully on-line. Update the Hattiesburg Urbanized Area Regional Plan for urbanized area cities and Counties, manage the required minor update annually; and manage the required major update every five years, incorporating a 10-year planning horizon. Assist in implementation of the bus stop and shelter installation program to study best locations for future phases of shelter/bench installations while keeping in mind Title VI requirement.
The Micro-Transit Study will provide a thorough launch plan including number of vehicles, service span, and expected key performances indicators such as ridership, productivity and cost. There will be 24/7 support and ongoing proactive information on how the Micro-Transit system is operating.

6.3 Public Transit Education
Develop and distribute audio-visual materials for broadcast on the City of Hattiesburg’s local cable, television, and radio and public service announcements. The HPFL-MPO will develop educational items that promote public transportation and will distribute these items at special events.

6.4 Transit and Para Transit Planning
Operations Supervisors participate in local emergency planning exercises and coordinate with other emergency entities to prepare for an actual emergency. Transit would make buses available if necessary in an emergency. To meet Title VI requirements, Hub City Transit studies service delivery to minority and economically disadvantaged locations in the service area using census data and an On-Board Survey. Hub City Transit staff participate in annual ongoing planning activities (short-range planning, grant development, maintenance planning and reporting Conduct a Fare Analysis, including study of the fare structure, fare technology and alternative ways of buying passes/tickets. Route planning and public outreach for improved transit services in the Hattiesburg Urbanized Area.

EXPECTED PRODUCTS
- Financial Management Plan: Develop budget for previous year’s operating expenses, Fiscal and managerial oversight of HCT, Operating and Capital expenses for HCT
- Preparation of plans and studies need to improve efficiency HCT
- Transit System Performance Monitoring
- Service Expansion Planning
- Comprehensive Marketing Plan: advertising, and public relations plan and strategy for communicating and promoting Hub City Transit.
- Passenger Waiting Facility Improvement Studies
- Identifying and prioritizing transportation projects for developing a multimodal transportation system.

After the adoption of the FY 2019/2020 UPWP, any major change in the document has to go through an amendment process. Changes in the UPWP, such as tasks priorities, inclusions or exclusion of projects or availability of additional funds, will require an amendment, to the adopted FY 2019/2020 UPWP.

An amendment to the UPWP must be recommended by the MPO’s Technical Committee and approved and adopted by the HPFL-MPO Policy Committee. A ten (10) day comment period will be provided for the UPWP amendment which will be consistent with the MPO’s Public Participation Plan.
